

Sub: Welcome to Livefield!

The image shows a welcome email from Livefield. At the top is the Livefield logo (a stylized orange building icon) and the word "LIVEFIELD". Below it is a greeting: "Welcome, Akshay! A better way to work awaits And we're here to help you every step of the way". A large "Image" placeholder is present. The next section is titled "We're here to help you how to use Livefield with quick , simple tips - starting with these 3 things to try out now." It lists three items: "Invite teammates" (Image placeholder), "Upload a sheet" (Image placeholder), and "Create a task" (Image placeholder). Each item has a brief description and a "Get Started" button. Below this is a section titled "What's next? We'll send you tips and tricks to teach you how to use Livefield, so keep an eye on your inbox!" followed by a "Working from the field?" section with a "GET IT ON Google Play" button. At the bottom are copyright and unsubscribe information.

Sub: How to manage resources with Livefield

The image shows a follow-up email from Livefield. At the top is the Livefield logo and the word "LIVEFIELD". Below it is a greeting: "Hi, Akshay! Did you know that you can manage resources like material, labour and Equipment in Livefield and do reporting at specific time interval without any hassle?". A large "Image" placeholder is present. The next section is titled "We're here to help you how to use Livefield with another quick , simple tips - starting with these 3 things to try out now." It lists three items: "Manage materials in Store room & on-site" (Image placeholder), "Record labour and Equipment log" (Image placeholder), and "Create a Survey" (Image placeholder). Each item has a brief description and a "Get Started" button. Below this is a section titled "Working from the field? Install Livefield on your phone today." with a "GET IT ON Google Play" button. At the bottom are copyright and unsubscribe information.

Sub: Hi Yogesh, Sagar from Livefield here

Hi Yogesh,

I'm Sagar Kothiya, the co-founder of Livefield Technologies and I'd like to personally thank you for signing up to our service.

As a civil engineer, I know that trying to manage large projects with your team can sometimes feel like juggling while defusing a bomb. It's tough to keep everyone on the same page and manage drawings, documents, resources, RFIs, punch-list etc. while getting actual work done. I and my friend Akshay feel the same and we thought there had to be a better way for teams to work together in the organized manner than the existing unorganized method like email and Whatsapp. We searched for the product on the internet but there wasn't much apps who satisfy our needs and some are not affordable. We decided to develop our products so we caught up with more builders and contractors to learn about their process, challenges and advice to make our product more useful.

We know that there is still space for improvement so I'd love to hear what you think of Livefield and if there is anything we can improve. If you have any questions, please reply to this email. I'm always happy to help!

Sagar Kothiya
Co-Founder, Livefield Technologies

Sub: Hi Akshay, Need help getting started?

Hi Akshay,

We haven't seen you in a while.

It looks like you are superbusy in your day to day life activites and didn't have enough time to review Livefield. We want to help you to stay informed with your ongoing projects and increase your productivity.

If you have any questions, please reply to this email. I'm always happy to help!

Sagar Kothiya
Co-Founder, Livefield Technologies
